

Cinema

Rachel and Monique own Cinema Erotique in Paris Saint-Denis district. Times are tough, what with video coming along and putting most porn theaters out of business. But the two lovers are nothing but resilient, and together they hatch a wild plan to save the cinema. But word gets out too quickly on what the women are doing and INTERPOL closes in. Will their hair-brained idea to get men off land them both in jail, or do the two have one more trick up their skirts? This humorous and heartfelt erotic short novella is 7,600 words and about 32 pages. ***Heres a Naughty Sample Just for You*** Youve got to be joking, Rachel said as she stared down at the clothes lying on the table. Im not wearing that! Yes you are, Monique said as if it were a matter of fact and Rachel had no say in the matter whatsoever. No, Im not, Rachel said, putting her hands on her hips. Giving men handjobs in the theatre was one thing, but parading around in a French maids outfit was something else altogether. Would you rather wear the naughty succubus costume? Monique asked, turning back to stare at Rachel concernedly. Id rather not do this at all! Rachel finally said, throwing her hands up in the air and storming over to sit down in a chair against the wall. Monique sighed and walked over to her, sitting down in the chair next to hers. She reached over and grabbed hold of Rachels hand. We made the decision to run this cinema together, Rachel, and for the past four years weve done a damn good job of it. She shook her head and looked down at the floor. Things have been tough, and believe me, if there were any other way to get this place profitable again Id do it in a heartbeat. She looked up at Rachel once again and tightened her grip on her hand. But there isnt, Rachel, and we both know that. This is it, this is our grand plan, and while I admit its not something to be real proud of, itll sure the hell keep the lights on! But

jerking strangers off? Rachel said, her face twisting up in disgust. I admit its not the most appetizing of prospects, or the cleanliest, but I think youll find it goes quick and its not as messy as you think.
