Stella X - Thatchers Brain

A planet on the edge of social collapse and widespread violence. A government not interested in the plight of its citizens. The locals no choice but to resort of self-defence against rising crime. But just how far will some of the people go to restore order? Somewhere outside an unsuspecting town lurks a laboratory, its contents unseen by anyone but a local ex-scientist. When began in the 20th century will end in the 24th.

Margaret Thatcher may have got dementia earlier if she had not A planet on the edge of social collapse and widespread violence. A government not interested in the plight of its citizens.
