

The Beatrix Potter Collection

Helen Beatrix Potter (28 July 1866 – 22 December 1943) was an English author, illustrator, natural scientist, and conservationist best known for her children's books featuring animals such as those in *The Tale of Peter Rabbit*. Born into a privileged household, Potter was educated by governesses and grew up isolated from other children. She had numerous pets and spent holidays in Scotland and the Lake District, developing a love of landscape, flora and fauna, all of which she closely observed and painted. Her parents discouraged her intellectual development as a young woman, but her study and watercolors of fungi led to her being widely respected in the field of mycology. In her thirties, Potter published the highly successful children's book, *The Tale of Peter Rabbit*. Potter began writing and illustrating children's books full-time.
