

## Broken (Women of the Otherworld)

In this thrilling new novel from the author of *Industrial Magic*, a pregnant werewolf may have unwittingly unleashed Jack the Ripper on the twenty-first century and become his next target. Ever since she discovered she's pregnant, Elena Michaels has been on edge. After all, she's never heard of another living female werewolf, let alone one who's given birth. But thankfully, her expertise is needed to retrieve a stolen letter allegedly written by Jack the Ripper. As a distraction, the job seems simple enough—only the letter contains a portal to Victorian London's underworld, which Elena inadvertently triggers, unleashing a vicious killer and a pair of zombie thugs. Now Elena must find a way to seal the portal before the unwelcome visitors get what they're looking for—which, for some unknown reason, is Elena. From the Paperback edition.
