

Bundle: Universe: Solar System, Stars, and Galaxies, 7th + Enhanced WebAssign with eBook LOE Printed Access Card for One-Term Math and Science

With their best-selling astronomy textbook, UNIVERSE: SOLAR SYSTEM, STARS, AND GALAXIES, authors Mike Seeds and Dana Backman help you understand your place in the universe--not just your location in space but your role in the unfolding history of the physical universe. To achieve this goal, the authors focus on two central questions: What Are We? which highlights your place as a planet dweller in an evolving universe, guiding you to better understand where we came from and how we formed; and How Do We Know? which provides insights into how the process of science can teach us more about what we are.
