

CPEN - Certified Pediatric Emergency Nurse Review, Putting It All Together: 1000 Review Questions

This Certified Pediatric Emergency Nursing audio review book is written and read by the author Scott DeBoer, RN, MSN, CPEN, CEN, CCRN, CFRN. This is the first time any of Scotts materials are being offered on audio and this audio presentation is being released before the physical 3rd edition is in print! Unlike most certification review books, this entertaining and informative audio review book is presented in the way we really think and talk in the Emergency Department. This 3rd Edition adds directly into the already innovative 2nd edition review book and is designed to reflect the updated Emergency Nurses Associations content outline for the Certified Pediatric Emergency Nurse (CPEN) examination. It will make the review of pediatric emergency nursing much simpler by offering over a thousand multiple choice questions with easy to remember rationales. This engaging and informative audio book offers more than 24 hours of step-by-step pediatric emergency care content and is designed to review essential material for individuals preparing to take and pass the CPEN Exam.
