

Even Hell Has Standards: Wrath

Fatima Oni never had a chance for a good life. Born into poverty, her hopes of anything better are dashed when she's given away as a child bride to her abusive uncle. Her days and nights become a living hell on earth, and things grow from bad to worse when Fate rips her children away from her. Can she keep turning the other cheek when faced with the ultimate loss, or will she give in to the wrath that boils inside her and take her fight for retribution to Hell and beyond? Wrath is the second of seven short stories in the Even Hell Has Standards series, where Chantal Noordeloos takes the reader through the darker side of human nature, and its road to redemption. This is Hell as you've never seen it before.
