

The Chosen One

Girls are a risk college freshman Ainsley Carmichael cant take. Her powerful political family sees her as the Chosen One who will someday be president. Upholding a carefully crafted veneer is second nature until the first day of class when Mayas mysterious gray eyes hold her in thrall. Ainsley may be out publically regarding her sexual orientation, but she lives under the shadow of the Carmichaels ancient but shrewd matriarch in this contemporary lesbian romance. The girls pair up for a history project, and it soon becomes clear Maya is hiding something when she cuts their first kiss short by pointing out they come from different worlds. The privileged world of the Carmichael clan stands in stark contrast to Mayas limited means. Ainsleys sexually fluid, quirky, and carefree cousin helps her investigate, only to discover details of Mayas past are sketchy at best as the suspense builds in this work of LGBT fiction. Will Ainsleys love for the enigmatic girl enable her to break her Carmichael shackles?
