

## The Adventures of Captain Bonneville, U. in the Rocky Mountains Captain and the Far West, Vol. 10 (Classic Reprint)

While engaged in writing an account of the grand enterprise of A storia, it was my practice to seek all kinds of oral information connected with the subject. Nowhere did I pick up more interesting particulars than at the table of Mr. John Jacob A stor; who, being the patriarch of the Fur Trade in the United States, was accustomed to have at his board various persons of adventurous turn, some of whom had been engaged in his own great undertaking; others, on their own account, had made expeditions to the Rocky Mountains and the waters of the Columbia. A mong these personages, one who peculiarly took my fancy, was Captain Bonneville, of the United States army; who, in a rambling kind of enterprise, had strangely ingrafted the trapper and hunter upon the soldier. As his expeditions and adventures will form the leading theme of the following pages, a few biographical particulars concerning him may not be unacceptable. Captain Bonneville is of French parentage. His father was A worthy old emigrant, who came to this country many years since, and took up his abode in New-Y ork. He is represented as a man not much calculated for the sordid struggle of a moneymaking world, but possessed of a happy temperament, a festivity of imagination, and a simplicity of heart, that made him proof against its rubs and trials. He was an excellent scholar; well acquainted with Latin and Greek, and fond of the modern classics.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings.
