

## The Lonely Planet Wall Calendar 2004 (Lonely Planet Belgium & Luxembourg)

For over 30 years, there has been one travel guide that goes beyond the rest: Lonely Planet. Journeying to places rarely visited, delving below the surface of country and culture, Lonely Planet pioneered a new, more authentic approach to travel. The Lonely Planet Calendar remains a visual treat and perennial source of inspiration for trekkers and armchair adventurers alike. Every month presents an exhilarating new destination, and every day a striking new photograph. From Belize's stunning, 500-foot-deep Blue Hole to mountainous Greek hill towns right out of Aesop's fables. Romania, the Canary Islands, Madagascar, and eight other fascinating locales. All year long, it's the world as it really lives.
