

Kids Animal Books - 25 Real Animal Photos With Interesting Fun Facts: Guess The Animal - Book 2 (Guess And Learn Series)

This Series Of Animal Books For Kids Has A FREE Bumper Pack Of Gifts Inside! This is the second kids animal book in the Guess and Learn animal series and is part of a wonderful collection that will help teach your child about numbers and animals. In this series I try to focus on younger readers who still need that visual content to help in understanding what they are reading. These Kids Animal Books are targeted at 3 year olds and upwards and are designed to be read with a parent or guardian. Questions and answers within the book will keep your child focused. The book series has a simple layout so your child can follow along while reading or being read to. As you can see, I have added as much learning information as possible without making the whole thing seem overwhelming. As well as learning about animals there is number learning too. At the top of each page I have included the number of the page written in letters and as a number. Book Section Numbers Each section starts off with a number at the top of the page. The number is written in letter form and in number form. This will help your child understand how to recognize numbers in both forms. Fun Animal Silhouette Images Below the section numbers are the fun silhouette images. With the Guess and Learn books you and your child can have fun looking at images of animal silhouettes and guessing what animal it is. There will be a short list of answers to choose from and on the next page the real animal will be revealed. There will also be some short fun facts to read through for each. Real Animal Photos Once your child has chosen their answer you flick over to the next page to see if it is the correct answer. The image on this page is now a REAL photo of the animal. Now your child can see what that particular animal looks like in real life. Kids Animal Books Guess and Learn Series The Guess and Learn series are a fun collection of

interactive learning books that are fun to read anytime, including bedtime. Your child can look at the interesting animal shapes and then guess the name or type of animal it is. Flip over to the next page where the answer is as well as a real photo of that particular animal and a list of fun facts. This book is fully illustrated and has simple blocks of text that will make learning fun for your child. Your child will be learning in a relaxed and fun way. The following animals featured are: Anteater Bear Buffalo Camel Crocodile Deer Dolphin Hamster Hedgehog Hippopotamus Horse Hyena Jellyfish Lizard Panda Peacock Pelican Pig Raccoon Seahorse Seagull Sloth Snake Tiger Zebra Fun while learning! This book is part of a series called, Guess and Learn all of which are great for bedtime reading. Collect the series! Don't forget your free gifts!
