

## Next, After Lucifer

From #1 New York Times bestselling author Neil McMahon: NEXT, AFTER LUCIFER Evil never dies. It may sleep for centuries, and then awaken to bring horror into the lives of modern people who never dreamed that the supernatural might be real. NEXT, AFTER LUCIFER takes place in a rural French village, where a renegade Templar Knight was burned at the stake in 1307 for black magic, human sacrifice, and blood-drinking vampire rituals. Now its the 1980s, and his undead spirit possesses an American renting a nearby luxury villa, with a tightening vise of terror and tragedy. This is a genuinely frightening story not recommended for young children. Authors Note: Update and Apology As of mid-October, 2012, weve replaced the original ebook texts of NEXT, AFTER LUCIFER; ADVERSARY; and CAST ANGELS DOWN TO HELL with new, corrected versions. The original files had quite a few typos, a technical problem that cropped up in scanning them from hard copy and converting them to MOBI. Theyre now in excellent shape (so are the paperback editions, by the way). My sincere apologies to readers who were disappointed in the quality of the earlier ebook texts. A well-turned tale of supernatural terror in which lurks one of the bestor worstmonstrous creations to come along in a month of Black Sabbaths. (Houston Chronicle, 1987)
