

## Darons Guitar Chronicles: Volume Six (Volume 6)

The latest installment of the award-winning web serial about coming out and coming of age in the 1980s. After the tumultuous events at the end of the tour in 1989 leave Daron and the band reeling, its time to get off the road for a while. When an opportunity to stay in Los Angeles comes up, Daron takes it. Theres session work and music industry schmoozing galore to be done in LA, but Darons true reason for wanting to be on the West Coast temporarily is simple: Ziggy is in isolation drug rehab in Cailifornia. Daron wants to be nearby, even if Ziggy cant communicate with the outside world. Is Daron prepared to deal with Digger, record company politics, and creative challenges alone? Contains chapters 389 through 472, originally serialized from May 30, 2013 and March 28, 2014, including Jonathans bonus story and Ziggys Diary.
