Doctor Grimshawe's Secret. A Romance

Nathaniel Hawthorne

A long time ago, in a town with which I used to be familiarly acquainted, there dwelt an elderly person of grim aspect, known by the name and title of Doctor Grimshawe, whose household consisted of a remarkably pretty and vivacious boy, and a perfect rosebud of a girl, two or three years younger than he, and an old maid-of-all-work, of strangely mixed breed, crusty in temper and wonderfully sluttish in attire. It might be partly owing to this handmaidens characteristic lack of neatness (though primarily, no doubt, to the grim Doctors antipathy to broom, brush, and dusting-cloths) that the house at least in such portions of it as any casual visitor caught a glimpse of was so overlaid with dust, that, in lack of a visiting card, you might write your name with your forefinger upon the tables; and so hung with cobwebs that they assumed the appearance of dusky upholstery. It grieves me to add an additional touch or two to the readers disagreeable impression of Doctor Grimshawes residence, by confessing that it stood in a shabby by-street, and cornered on a graveyard, with which the house communicated by a back door; so that with a hop, skip, and jump from the threshold, across a flat tombstone, the two children were in the daily habit of using the dismal cemetery as their playground. In their graver moods they spelled out the names and learned by heart doleful verses on the headstones; and in their merrier ones (which were much the more frequent) they chased butterflies and gathered dandelions, played hide-and-see among the slate and marble, and tumbled laughing over the grassy mounds which were too eminent for the short legs to bestride. On the whole, they were the better for the graveyard, and its legitimate inmates slept none the worse for the two childrens gambols and shrill merriment overhead. Here were old brick tombs with curious sculptures on them, and quaint gravestones, some of which bore

puffy little cherubs, and one or two others the effigies of eminent Puritans, wrought out to a button, a fold of the ruff, and a wrinkle of the skull-cap; and these frowned upon the two children as if death had not made them a whit more genial than they were in life. But the children were of a temper to be more encouraged by the good-natured smiles of the puffy cherubs, than frightened or disturbed by the sour Puritans.
