

WINGS OF FURY (Dragonlance Fifth Age Dramatic Adventure Game)

A generation ago, the War with Chaos heralded a new age for the world of Krynn - the Age of Mortals. Just as the shattered land of Ansalon had begun to recover, a new threat from across the sea descended upon the populace: the Great Dragons. Larger and more fierce than any wyrms ever to battle in the wars of past ages, these beasts have brought terrible oppression to the land they now claim. Humans and elves, dwarves and centaurs, minotaurs and kender all suffer under their shadow. But the FIFTH AGE is not without its heroes. Born of myriad races, these valiant souls found inspiration in legends of heroes of yore. They now take up sword and lance, master an almost forgotten primordial magic, and harness the untold energies of the human heart to defend their people from the dragons lords of Ansalon. DRAGONLANCE FIFTH AGE is an all new role playing game that builds on the foundations of the best selling novel Dragons of Summer Flame. The game features the unique SAGA dramatic adventure rules, designed to reproduce the sweeping romance and fantastic epics of the DRAGONLANCE tradition.
