

Engineer-In-Training Reference Manual (Engineering reference manual series)

More than 300,000 engineers have relied on the Engineer-In-Training Reference Manual to prepare for the FE/EIT exam. The Reference Manual provides a broad review of engineering fundamentals, emphasizing subjects typically found in four- and five-year engineering degree programs. Each chapter covers one subject with solved example problems illustrating key points. Practice problems at the end of every chapter use both SI and English units. Solutions are in the companion Solutions Manual. Comprehensive review of thousands of engineering topics, including FE exam topics Over 980 practice problems More than 590 figures

Over 400 solved sample problems
Hundreds of tables and conversion formulas
More than 2,000 equations and formulas
A detailed 7,000-item index for quick reference

Since 1975 more than 2 million people preparing for their engineering, surveying, architecture, LEED, interior design, and landscape architecture exams have entrusted their exam prep to PPI. For more information, visit us at www.ppi2pass.com.
