

# Fundamental Neuroscience

Fundamental Neuroscience is the only comprehensive text that defines the full scope of neuroscience. Developed in accordance with results of extensive reviews by neuroscience instructors, and in cooperation with the Association of Neuroscience Departments and Programs (ANDP), this text is divided into seven integrated sections. Each section may be used for a specific course, or the full text may be adopted to provide a broad-based curriculum that will carry the student from molecular to cognitive neuroscience.

**Key Features\*** Written by approximately 100 authors who are specialists in their field; careful editing ensures a uniform style and cross-referencing\* Prepared in cooperation with the Association of Neuroscience Departments and Programs\* Internationally renowned editorial board\* Developed in accordance with results of careful, extensive reviews by neuroscience instructors\* Comprehensive coverage of molecular, cellular, developmental, organismal, behavioral, and cognitive neuroscience
