

Godfrey Morgan, a Californian Mystery

Godfrey Morgan: A Californian Mystery is the story of a young adventurer, Godfrey Morgan, and Professor T. Artelett, who embark on a round-the-world ocean voyage. Their ship is wrecked and they are cast away on a remote island, where they rescue and befriend an African slave, Carefinotu. Jules Gabriel Verne was a French novelist, poet, and playwright best known for his adventure novels and his profound influence on the literary genre of science fiction. He was trained to follow in his fathers footsteps as a lawyer, but quit the profession early to write for magazines and the stage. His collaboration with the publisher Pierre-Jules Hetzel led to the creation of the Voyages Extraordinaires, a widely popular series of scrupulously researched adventure novels including A Journey to the Interior of the Earth, Twenty Thousand Leagues Under the Sea, and Around the World in Eighty Days.
