

Dead Storm: A Masters Thriller (The Masters CIA Thriller Series) (Volume 3)

Hackers can steal your money, control your car, access your secret files. What if one had a grip on your beating heart? Whatever. Clints got his own problems. With his company in chaos, only a bottle of scotch tempers his misery. But his apathy will cost others their lives. A plea from the President of the United States doesnt shake his despondence. Not even an ultimatum from Beth. But the Washington elite wont let Clint rest until they get answers. Will Clint rise above his mounting despair and help the CIA catch a cyber killer? FROM READERS: Absolutely a must read, one of best I have read impressed with the development of the characters and a little frightened at how prescient the author is in describing the potential for cyberterrorism. This series is terrific...Fast moving plot. Great character development. Edge of your seat as were the previous installments. well-written, gripping, and entertaining with believable characters, some more likable than others. Combines threats to President, corporate collapse, international affairs and human emotions into a story you will not want stop reading until the end. If you liked the first two books, you will love this one. If you have not read the first two books, get crackin.
