

Henry James :The Collected short stories

Henry James a master of literary realism major figure in the literary realism of the nineteenth century, Henry James is considered a master of the new and novel for the refinement of his writing. He is best known for a series of major novels in which he describes the encounter of America with Europe. His plots involve personal relations and the exercise of power entailed, and other moral issues. By adopting the perspective of a central character in the story, he explores the phenomena of consciousness and perception. The style of his later works have been compared to an impressionist painter. Henry James wanted to convince the British and American writers to present their vision of the world with the same freedom as the French authors. His imaginative use of narrative point of view, interior monologue and the narrator lying in his own stories and novels brought a new depth and a renewed interest in realistic fiction, and foreshadowed modern works of the twentieth century. In addition to its impressive work of fiction, this prolific author also produced numerous articles, books of travel, biography, autobiography and literary criticism, but also plays, some of which were mounted in his lifetime with relative success. His dramatic works have profoundly influenced his later literary productions. This book contains eight short stories of Henry James:

1. THE SIEGE OF LONDON
2. The Beast in the Jungle
3. A Passionate Pilgrim
4. The Last of the Valerii
5. Eugene Pickering
