

Decision Point

The Pacific Rims most vicious human predators, the Liberation Tigers of Tamil Eelam, are on the move again. But old-school terror tactics have given way to a more clandestine approach to hijacking global power. The Tigers have grassroots fundraising inside the United States and the death of a uniquely positioned software engineer tips to something big in the works. A young woman from a powerful family is ransomed at the same time a powerful new technology is stolen. Following the trail of both, Mack Bolan finds that it leads to Singapore and the murky waters of the Bay of Bengal. The Tigers have acquired a top secret satellite and soon the terror will go online. Staying one step ahead of their stone-cold pursuer and finding refuge in their fortified compound, the Tigers and their calculating leader give Bolan a fight for his life. Hes willing to pay that price, but hell take the terrorist leader and his pirates to hell with him for their crimes.
