

Laboratory Exercises in Anatomy and Physiology with Cat Dissection (6th Edition)

This manual meets the needs of undergraduate and pre-professional students enrolled in either a one- or two-semester (or quarter) Human Anatomy and Physiology course that includes cat dissections as part of the laboratory experience. This top-selling laboratory manual follows a body-systems approach and is compatible with any introductory anatomy and physiology text. It features comprehensive coverage of all structures, extensive use of the scientific method, and full-color illustrations and photographs.
