

## Pressed: The Reluctant Hero Series

Bruised and battered from a recent mission, ex-CIA analyst Kurt Vetter is pressed into service once again when hackers launch a devastating cyber-attack on the United States Strategic Early Warning System, nearly triggering a nuclear confrontation. When Kurt and his partner Amanda Carter investigate the security lapse, they discover that elements of a Russian sleeper cell have compromised the integrity of the National Military Command Center. To further complicate matters, Kurt and Amanda also learn that a Chechen arms dealer with a stolen nuclear warhead is about to start selling suitcase nukes to the highest bidder.

With membership in the nuclear club poised to explode and the United States effectively blinded to the threat, Kurt and Amanda are the last line of defense before the world descends into anarchy. Book 1 - The Patriot Paradox Book 2 - Pressed Book 3 - Blood in the Streets
