

INVASION USA - Boxed Set - Set II

At exactly midnight on December 31, every electronic device made in China for the last 30 years stops working. From the U.S. electrical grid and all its back-ups, engine control-management systems, early warning systems on U.S. satellites, every motor vehicle, aircraft and ship made after 1985, to even simple memory chips inside childrens teddy bearsevery electronic fuse, resistor, or connector that was Made in China becomes dormant forever. At one minute past midnight on January 1st, every modern television broadcast of the U.S. New Years Eve festivities on the East Coast black-out. Millions of motor vehicles with an engine management system or engine-computerized system suddenly die, causing loss of control and thousands of accidents only seconds into the New Year. Traffic lights, directional beacons, communication stations, and all aircraft landing systems black out a couple of minutes later, as their modern back-ups start failing. Childrens Christmas presents, nearly forgotten, stop buzzing, moving, and blinking and go silent. Radios, computers, and all forms of electronic communication deviceseven the latest 132 million electronic Christmas presents given only a week earlier (iPhone 5Gs, IPod Nano 4s, IMac Notepads and iPad 3s) go silent, never to blink on again. Ninety seconds after midnight, the entire electrical grid of North America deactivates itself and goes into close-down mode. The shutdown of the United States of America, and 97% of the entire world, is accomplished by 12:30 am U.S. Eastern time on the first day of the New Year. It takes only 30 minutes to completely dismantle the whole of modern Western civilization as we know it. China decided decades ago to become the most powerful nation on earth, a spot filled by the mighty USA. How will they claim Number 1 position? The INVASION USA series takes you through a fictional attack by a private Chinese company on the world

by destroying everything the company has built for the last 30 years; 96% of the worlds electrical products! All mobile communications, computer chips, computer management parts for cars, fighter aircraft, tanks, rockets and all nuclear power station computer controls, nothing is exempt from total destruction. Even the worlds GPS system, the entire U.S. national grid, and the Internet are not exempt from the threat, at midnight, New Years Eve, Eastern Time. What happens if a few members of the U.S. Congress, the countrys food companies and even major drug companies are in on the Chinese attack; to get their share of the new world? The Invasion series is fictionally real, the threat possible and will affect every person in the world. If you enjoyed this series check out T I WADEs AMERICA ONE Series also here on Amazon.
