

The Twelve Stones

Twenty two years ago, Alex McCray found the first of the Twelve Stones, a set of powerful artifacts left for Humanity to find and use to save Earth from certain destruction. Returning to his hometown of Onyx, California, Alex reunites with his father who returns the stone Alex found so many years ago. Their reunion is cut short however after Alex's father is murdered by billionaire industrialist Rupert Kline, a madman who will stop at nothing to collect all twelve stones for himself. Driven by revenge, Alex McCray vows to bring his father's killer to justice and keep the remaining Twelve Stones out of Kline's hands. A thrilling tale that mixes romance, cutting edge science, and oh yeah, the fate of human civilization.
