

## The Cured

THE CURED is brilliant - I couldn't put it down. What a cracking ending - one of the best suspense-thrillers I've ever read. Anna Jacobs, best selling author of Heir to Greyladies and In Search of Hope When over 4000 people world-wide died after taking a cure for cancer, the drug was recalled. But the questions kept coming. Was it contamination? Was it sabotage? Or, was it outright murder by an insane research scientist in retaliation against the pharmaceutical giant he worked for and to avenge the death of his wife? And everyone wanted Doctor Donald Brockman! The lawyers wanted answers; the FDA wanted answers and, Homeland Security wanted the doctor! When the 911 code flashed across her beeper, Doctor Kira Brockman went cold. The one thing she had been dreading had happened and her life as she knew it had been changed, and the change was for the worst! The wrong people had found her father! She knew she had very little time to get out of the hospital, to find her brother and to run before Homeland Security and the FBI found them, and they were not the only ones: the lawyers who were in the midst of a huge class action suit against the international pharmaceutical manufacturing giant who had sold the cancer cure wanted her and the evidence she had as well as the lethal security team from the drug company who was trying to stop Kira Brockman from disclosing the evidence only she could get evidence that would save her father and they would use any means necessary to stop her. And so begins a heart stopping cross country race to save her father's life and prove he was not responsible for the deaths of 4000 people. The Cured who had survived cancer because of his medication and then inexplicitly died from the very cure he'd created. From the first page, Wind and Ramin take you on a non-stop, life and death race. An intricate but believable plot

leads to breath stealing suspense as the reader worries over the likable protagonists, thrown together by fate. Annette Mahon, author of the St. Rose Quilting Bee Mystery Series
