

## Star Force: SF21-25 (Volume 4)

You think the world is safe. You think everything is under control. You think there is nothing Humanity cannot do if it puts its mind to it. All the things you take for granted, the normal life that you think is yours by natural right never existed. Earth is not what you think it is. It is a ticking time bomb wrapped up in a delusional utopia called everyday life. As you look up at the stars imagining Humanity's future you're actually seeing into your race's past that is fated to return with horrific consequences. One man discovers that past and the inevitable countdown that Earth is under. Knowing that the planet's present anonymity is the only reason it has survived to date, he dedicates his life and his fortune to defying the impossible and giving Humanity a slim chance, not of victory, but of mere survival against an enemy so ruthless and terrifying that their name will forever be seared into Human memory. They are the Vkitnosat, and you've seen them before you just don't know you did. With the knowledge of Earth's past driving his plans for the future, the man who holds Humanity's fate in his hands wisely chooses to keep his discovery secret, all the while recruiting resources and allies to form the organization that will spearhead Earth's only hope against a dark and devastating future. An organization known as Star Force. --- With 100 novella-length installments planned for the series, a level of detail far surpassing any casual sci-fi story, and already over 13,000 sales, STAR FORCE is no mere action/adventure thriller, but rather a grand new universe for readers to dive into from the very beginning, gradually building into an epic franchise on a scale akin to Mass Effect or Halo.
