

Main-Street (Classic Reprint)

It was one of the early literary projects of Nathaniel Hawthorne to put life into the dead body of New England historical annals. How lifeless those annals were we may discover by hunting them up on the dust-covered shelves of antiquarian libraries; and the enterprise of endowing them with bloom and fragrance would seem as hopeless an one as could be proposed to a literary man. But Hawthorne possessed creative genius, and that made all the difference. He himself was able to see through the veil of the printed page of the old annalist, and to behold rising before his imaginative vision, the world and the personages that had been, warm with life and glowing with color and passion. This vision he aimed to communicate, by the art of lucid and vivid portrayal and suggestion, in which he has had no superior, to his fellow citizens; by this beneficent spell he wrought upon them to make the acquaintance of their own past.
