

The Piranha Assignment (A Stark and OBrien Thriller)

The Piranha is Americas newest super weapon-a stealth submarine that will give the U.S. total command of the seas. Built in secrecy in Panama, the Piranha is ready for testing, but CIA agent, Mark Roberts feels that something is not quite right about the project. The CIA asks Stark and OBrien to investigate. When Stark and OBrien join the Piranha security team they find that the project and its leader are not what they appear to be. But to avert disaster and reveal the truth they must defeat an army of terrorists and survive a climactic battle with a crazed giant who kills jaguars with his bare hands.
