

The Rhine (Classic Reprint)

Shortly after Hugo's Rhine engaged the attention of the public, various were the criticisms which appeared in the daily and weekly papers, one praising the work in toto, another eulogizing what is termed The Rhine but condemning Thk Conclusion, which has no reference to the excursion, being nothing more nor less than a political argument respecting the right of Germany to the left bank of that river. Free from party prejudice, the translator perused the work, and was so pleased with The Rhine as a literary production, that he inserted an abridgment of it in The Mirror, which was warmly received by the press in general, and by the readers of that old and respected periodical. Impressed with this fact, and confident of the merit of The Rhine, in conjunction with its utility as a Guide, the translator brings it once more before the public, in a new and embellished form. The work consists of a series of letters descriptive of an excursion up that River.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings.
