

Once in a Lifetime

Leigh Sterling and Jodie Whitehouse share a deep love and extreme passion in the bedroom. But when Jodie's desire for a child becomes inevitable, it clashes with Leigh's career ambitions as well as with her lack of maternal instinct, and forces them apart. They go through life separately and, as years go by, their attempts at other relationships fail to measure up to the power of the union they once shared. When they see each other again eleven years after their painful breakup, an opportunity arises to explore if they really were each other's one true love.
