

The Night Listener and Others

Chet Williamson's first story collection, *Figures in Rain*, won the International Horror Guild Award and was shortlisted for the World Fantasy Award. But while that collection was primarily made up of ghost stories, *The Night Listener and Others* is an assemblage of tales that cover all aspects of the fantastic and horrific by a writer whose work critics have favorably compared to such disparate writers as Camus, Cheever and King, and who *Supernatural Literature of the World* hailed as the rare writer whose fiction reflects an intimate familiarity with the supernatural literary tradition, and who extends it with works that occasionally subvert its principles.
