

## Blowing Out The Candles: Book Three, Love and Puds

Love and Puds is the third book in Jim Gees Trilogy, Blowing Out The Candles. I have spent my career as an academic, Jim Gee tells us. When I was young, to me being an academic meant being a secular priest. But my church is a fallen church. We no longer honor little things like truth, but only big things like money. There is enough about Gees poems to keep a conversation going in a class in the Humanities or Sciences for an entire semester, and the issues raised about the politics and ethics of representation, the demands of official ideology, and the inexplicable human capacity for good and evil, are more than enough to keep us all conscious of the increasing dehumanization of the age we live in. If all this sounds too heavy, it is important to add at the risk of Gees wrath that his poems will also make you laugh. They are paradoxical as well as quixotic, filled with the absurdities of life that make good stories to share with friends over coffee or dinner. For sometimes in our lives when our unconscious and conscious meet, the cry out loud comes in the form of a laugh.
