

World Regions in Global Context: Peoples, Places, and Environments, Books a la Carte Plus MasteringGeography with eText -- Access Card Package (5th Edition)

This edition features the exact same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value for your students this format costs 35% less than a new textbook. World Regions in Global Context presents a strong global sensibility and an emphasis on current concerns, with models of interdependent development, spatial and social inequality, and questions of spatial justice. The authors maintain that regions are the outcomes of a set of twin forces of globalization and regionalization. Therefore, each regional chapter stresses the global systems of connection that drive unique regional processes, making regions different. By studying regions, students not only learn the critical elements of different places, but also come to understand the fundamental processes that drive change. The Fifth Edition discusses geographies of emerging regions, incorporates cutting-edge data visualizations and infographics, including Quick Response codes linking to online media, features a completely modernized cartography program, and much more. Package consists of: Books a la Carte for World Regions in Global Context: Peoples, Places, and Environments, 5/e Access Card Code Card for MasteringGeography with Pearson eText
