

Poacher Hunters (The Djinn Trials Book 2)

How do you build a better monster, one that could destroy the real monsters of the world? If the Oneiroi have anything to say about it, the first thing you'd teach it is to hone in and exploit their sins. Welcome Belial, Eris, and MV to the degenerate party! With the help of his newly acquired abilities and a few older, unorthodox methods, Belial willingly transforms into the creature Tokoloshe to combat a ring of poachers and human traffickers that stretches over several continents. It's up to Eris and MV to keep him from going too far into the reaches of human wickedness.
