

## Exam Copy

A new entry for the growing topically-organized segment of this market, *Child Development: A Topical Approach* presents pivotal research and theories in a more readable, accessible style than books currently available. This first edition teams Diane Papalias teaching and writing expertise with Ruth Feldmans professional writing, and it introduces Dana Gross - a child development researcher and professor at St. Olafs College in Minnesota. Applauded by reviewers for its combination of research coverage with applications and real-life examples, this new text also includes Papalias hallmark of superior coverage of cross-cultural and social policy topics, and a new emphasis on the history of child psychology.
