

Say Nothing: A Novel

Terrific book. Truly terrific. Tension throughout and tears at the end. What could be better than that? Sue Grafton Outstanding starts with a bang and gets tenser and tenser. Say Nothing shows Parks is a quality writer at the top of his form. Lee Child Judge Scott Sampson doesn't brag about having a perfect life, but the evidence is clear: A prestigious job. A beloved family. On an ordinary Wednesday afternoon, he is about to pick up his six-year-old twins to go swimming when his wife, Alison, texts him that she'll get the kids from school instead. It's not until she gets home later that Scott realizes she doesn't have the children. And she never sent the text. Then the phone rings, and every parent's most chilling nightmare begins. A man has stolen Sam and Emma. A man who warns the judge to do exactly as he is told in a drug case he is about to rule on. If the judge fails to follow his instructions, the consequences for the children will be dire. For Scott and Alison, the kidnappers' call is only the beginning of a twisting, gut-churning ordeal of blackmail, deceit, and terror; a high-profile trial like none the judge or his wife has ever experienced. Their marriage falters. Suspicions and long-buried jealousies rise to the surface. Fractures appear. Lies are told. Through it all, Scott and Alison will stop at nothing to get their children back, no matter the cost to themselves . . . or to each other. A twisting, suspenseful ride that adds a new and original twist to the legal thriller: a judge, cornered. If you haven't discovered Brad Parks yet, Say Nothing is your chance. Smart, propulsive storytelling. William Landay From the Hardcover edition.

Say Nothing (Speak, #2) - Goodreads Say Nothing, Brad Park's big, ambitious, sometimes troubling, always suspenseful new novel, portrays an American family besieged by evil. **Buy Say Nothing: A Novel Book Online at Low**
