

## Gn Everything (Classic Reprint)

On Song OOME say that when that box was opened wherein lay ready the evils of the world (and a woman opened it) Hope flew out at last. That is a Pagan thing to say and a hopeless one, for the true comfort that remained for men, and that embodied and gave reality to their conquering struggle against every despair, was surely Song. If you would ask what society is imperilled of death, go to one in which song is extinguished. If you would ask in what society a permanent sickness oppresses all, and the wealthy alone are permitted to make the laws, go to one in which song is a fine art and treated with criticism and used charily, and ceases to be a human thing. But if you would discover where men are men, take for your test whether songs are always and loudly sung. Sailors (Typographical errors above are due to OCR software and don't occur in the book.)
