

Mosbys Radiography Online: Radiologic Physics, Radiographic Imaging, & Radiobiology/Radiation Protection User Guides, Access Codes & Bushong Eighth Edition Text/Workbook Package

These multidimensional online course supplements enhance students understanding of radiographic imaging, radiologic physics and radiation protection through an exciting range of visual, auditory, and interactive elements that amplify course content, synthesize concepts, reinforce learning, and demonstrate practical applications. Interactive tools reinforce learning, featuring a variety of student and instructor communications options, interactive exercises, illustrations, animations and slide shows with audio narration, and instructor administrative tools. Students may log on, complete lessons, and take quizzes and exams online - the program records their results! Using the course management system (WebCT or Blackboard), instructors can tailor the programs content to the specific needs of their course. Mosbys Radiography Online: Radiographic Imaging can be partnered with any imaging text, offering greater learning opportunities and flexibility. *Notice to Customer* This is an instructor-led tool, and can only be accessed once an instructor establishes a course instance. Customers who order this online product will receive a booklet that contains the access code to the course in 5 to 7 business days. This package contains the User Guides and Access Codes for Mosbys Radiography Online: Radiologic Physics, Radiographic Imaging, and Radiobiology & Radiation Protection, as well as the text and workbook/lab manual for Bushong: Radiologic Science for Technologists: Physics, Biology and Protection, 8th edition.
