

## Selected Shorter Poems

Although known best for his sweeping allegorical epic *The Faerie Queen*, Edmund Spenser wrote a number of other significant poems. His first major poetical work *The Shepherds Calendar* begins this collection of his *Selected Shorter Poems*. An emulation of Virgil's *Eclogues*, *The Shepherds Calendar* depicts the life of shepherd Colin Clout through the twelve months of his year. The twelve eclogues of the poem, each named after a different month, discuss abuses of the church, offer praise for Queen Elizabeth, and reveal the struggles of a lonely shepherd. Also included in this edition of Spenser's poetry are the following poems: *The Ruins of Time*, *Prosopopoeia*, *Muiopotmos*, *Colin Clouts Come Home Again*, *Amoretti*, and *Epithalamion*.
