

## The American Scene

The American Scene is a book of travel writing by Henry James about his trip through the United States in 1904-1905. Ten of the fourteen chapters of the book were published in the North American Review, Harpers and the Fortnightly Review in 1905 and 1906. The first book publication was in 1907, and there were significant differences between the American and the English versions of the book.
