Why does this keep happening every time I get comfortable?She shuffled her way down the hall to her front door. Opening the door a crack with the safety chain on,

she peeked outside. No one was in sight. Just as she was getting ready to close the door again, she glanced down and saw a rather large package sitting at her feet. It was wrapped in black shiny paper with a large silver ribbon around it. Hmm, first the flowers and now this, she muttered to herself. Carefully, she picked it up and carried it back inside. After locking the door, she took her package back to the family room with her and sat down on the sofa. I wonder what this is, she mused. She slipped the ribbon off of the package, and then turned the box over to remove the tape at the ends. This allowed her to take the paper off without tearing it before sliding the box out of it. Using her fingernail, she slit the tape on the sides of the box and lifted off the top. Inside, nestled in tissue paper, was a folded deep red velour robe. Wow, she thought. This is gorgeous! She started looking around to see if a card was included and she found it taped to the side of the box. She opened the small envelope and withdrew the card. Staying warm is the best way to get well.
