

## The Millennium Scrolls

In Jerusalem a new millennium dawns. While working on a controversial building project in the occupied West Bank, David Weisman, a young Israeli engineer, accidentally uncovers a mysterious bronze cylinder. Inside are 2000 year old scrolls which soon land him in danger and engender a dispute which threatens to rip the Holy City apart. In search of scholars who can decipher the message of the scrolls, David flees to the USA, England and Rome. On his quest David encounters friendship, hatred, murder, betrayal and Lydia, a passionate Italian beauty, who teaches him the meaning of love, faith and redemption. The Millennium Scrolls is a tale woven with tension in every warp and weave of its twisting plotline a plot the reader will find impossible to set aside.
