

The Masters Key: A Masters Thriller (The Masters CIA Thriller Series) (Volume 2)

With Boston under fire, only Clint Masters can stop the madness. But the city blames him for every disaster. With his allies at the CIA, Clint battles a mysterious new threat targeting his company and the citizens of Boston, who now live in fear. Under a gag order from his last confrontation, Clint can't reveal the truth about the tragedies. In spite of city-wide panic, he sees the terror attacks as personal. And he learns that not everyone at the CIA wants to catch the killer. With public suspicion at redline, Clint must go on the run to survive. Can he capture the elusive and ruthless maniac before his city burns? Or will Clint become the next victim?

FROM READERS: Wow! This book is a thriller! It puts you on the edge of your seat almost immediately and keeps you guessing all the way to the end. From cyber crime to murder this story compels you to go from page to page to page. The author has truly brought the reader into the terrifying world of cyber tech gone wrong. This is Stephen King scary with a high tech subject. I am still shaking after finishing this book. This one is just as awesome, oh and it isn't over until the last card is played. I cannot wait to begin the final game. All the story lines make sense and tie back together. I love, or hate, the characters, as appropriate. They totally pull me into their world where I struggle along side them, trying to figure out the next move. Need to come up for air! & Read her other books as well if you like things ramped up. Highly recommend this book to all fans of on the edge of your seat thrillers.
