

The Secret of Getting Rich

While Europe is suffering from an important economic crisis whose consequences threaten the whole world, there is one country in the heart of Europe thriving and prospering almost more than ever before: Germany, at the same time one of the economically strongest nations on our planet. What is the secret of its stunning wealth and welfare despite a rather tense situation in global economy? Are Germans just more diligent or devoted than others? Do they simply work harder? Is it due to Christian work ethics or the teaching of Martin Luther that they are more devoted? Or is there, maybe, anything magical behind this? This e-book, which is not a study book of economics at all, attempts a weird, but fascinating answer to this question by diving deep down into the world of German myths and folk tales since whoever wants to understand a countrys mentality, generally the main reason for its wealth, needs to understand its soul, the clue to which one finds deep down in its history and its cultural heritage including such art treasures as myths, tales and legends. This is why this e-book offers you the famous magical legend of the star talers (or star dollars), in which money simply and literally falls from the sky. Whether you like this tale or not, there is one thing we as the editors can guarantee: if you manage to act as the main character of this magic tale does, you will definitely become rich and be opulently rewarded by a gracious God! Give it a try!
