

## Thirst: Poems

Thirst, a collection of fortythree new poems from Pulitzer Prizewinner Mary Oliver, introduces two new directions in the poets work. Grappling with grief at the death of her beloved partner of over forty years, she strives to experience sorrow as a path to spiritual progress, grief as part of loving and not its end. And within these pages she chronicles for the first time her discovery of faith, without abandoning the love of the physical world that has been a hallmark of her work for four decades.
