

The Haunted E-book

Dee escapes her dreary librarian job and unfaithful boyfriend by reading romance and fantasy on her Kindle. She tries The Haunted E-book, the story of a 19th century tramp printer whose ghost awakens whenever someone reads a book he created. The ghost stalks his readers and threatens them with death if they stop reading the book. Though she doesn't usually like horror stories, Dee can't stop herself from reading it. Then Dee learns the stories in the books are true, the malevolent ghost is real, and Dee might be the next character to die.
