

4 Suspense Novels in 1 (Spellbound, Mania, The Mindbender, Days of Vengeance)

This collection includes four complete novels by Tim Kizer: Spellbound, Mania, The Mindbender, and Days of Vengeance.-----Spellbound, a suspense novel Shortly after his arrival in the small town of Porterville, Texas, Detective Jack Nelson meets a stranger who claims that they've been friends for over a month. A waitress in the diner across the street from his motel recognizes Jack and tells him he's been eating at her restaurant for two months. When Jack discovers undeniable evidence that most of his memories are false, he begins to suspect that he's a subject of a mind-manipulation experiment conducted by a secret organization. What he doesn't realize is that the motel he's staying at is owned by a powerful evil entity thriving on death and human suffering. He also doesn't know that everyone who left this place ended up committing suicide.-----Mania, a suspense novel Richard Brower has killed a dozen people. Now someone is trying to frame him for the murders committed by another serial killer. Serial killer Richard Brower buried his cheating wife, Mary, in the woods on Saturday. On Monday, Mary calls her brother's girlfriend. A few days later, she calls her mom. Then Mary bumps into her friend at a mall. Are all these people lying or has Mary actually come back from the dead? Richard has no idea, but he will get to the bottom of this. Or at least he'll try.-----The Mindbender, a suspense novel Navy SEAL Max Pollack is the sole survivor of a classified mission to an uninhabited Arctic island, which claimed the lives of eleven men who vanished into thin air. The Department of Defense believes that Pollack acquired mind control powers at some point during the mission. Pollack insists they are wrong. After he finds proof that Pollack is capable of mind control, FBI Agent Peter Anderson tries to figure out why the SEAL hasn't used his extraordinary ability to

escape from the military base where he is held. Was getting imprisoned by the government part of Pollacks plan? Consumed by paranoia, having no one to trust, Peter has trouble telling which thoughts are his own and which have been planted by the mindbender. Peter fears that Max Pollack has found his way into the mind of every top government official, including the President. Who are Max Pollacks masters and what are their plans? The frightening thing is, even the mindbender might not know the answers.-----Days of Vengeance, a suspense novel First, his wife went missing. Then he lost his memory. Now he has to remember where he buried the body. Frank Fowler is having a bad year: hes about to remember that his wifes family is a gang of sadists controlled by a monster... Frank Fowler, a man suffering from amnesia, suspects he may have murdered his wife Kelly, who vanished three days before he lost his memory. The bad news is Kellys family has the same suspicions and will stop at nothing to make him remember what he has done to their beloved sister and where he buried her body. As memories trickle back to him, Frank is still unable to figure out why he slaughtered Kelly and what happened to his accomplice. Franks search for answers becomes a fight for survival after he rediscovers that his wifes relatives are a clique of ruthless serial kidnappers serving a mysterious one-legged man. His chances are slim: one of the in-laws is a cop and another is a multimillionaire. His options are limited: he either finds his wife--dead or alive--or dies. In his race against time Frank has all the clues to the puzzle, he just needs to remember them before its too late. Unfortunately, Frank has no idea that hes in for the biggest shock of his life...
