

## TAINTED MONEY

Thirteen terrorists have each smuggled six ounces of the smallpox virus into the United States hidden inside video cameras. They meet with agents already in country who gives them \$20,000.00 in five, ten and twenty dollar bills. They lace the money with four ounces of the virus and began to spend, drop and just give it away. The terrorists place the remainder of the virus on their hands where they shake hands with everyone they can, touch telephones, door knobs etc. The terrorists have two weeks to complete their mission. The FBI, CIA and Mossad know the terrorists are in the United States but do not know who or where they are nor their intentions. The chase is on.
