

Tom Clancys Power Plays: Cold War

Global stability and the New World order are in peril, and American businessman Roger Gordian, star of POLITIKA and SHADOW WATCH, must again mobilize the full resources of his multinational corporation to counter the threat. Bearing all the hallmarks of classic Tom Clancy, the fifth Powerplays novel serves up another dose of international intrigue and political brinkmanship. Intricate plotting, exceptional authenticity and knife-edge suspense will see this book repeat the massive success of its four predecessors.
